PRESS AND PUBLIC ARE WELCOME TO ATTEND

Appendix 1

Aircraft Noise

- Plaistow are, I believe arranging a meeting with APCAG to discuss concerns
- Re-widening of the swathe (part of the agreed actions following the Arrivals Review detailed in my July report) was supposed to have been implemented on 15 August but there seems to have been no discernible change
- LGW have applied to reduce the cost of night landing slots (presumably with a view to increasing usage) - this will obviously increase noise at night time
- There was a meeting of the Noise Management Board w/c 5/9 & Peter Drummond has undertaken to provide an update on all these concerning issues

Crouchland

- CBG have not contested the inspector's decision (see July report) following the hearing on CLU - they either haven't understood the restrictions imposed by the inspector or are in denial of the facts
- CBG (or Crouchland Farm) have applied for permission to replace their cow sheds as they are increasing their herd - - we need to understand the game here!
- CBG have a new Group Operations Manager who wants to meet with the PCs - Sara arranging
- The planning inquiry regarding the refusal of retrospective PP/enforcement notices is now scheduled for Jan 2017
- The EA have prosecuted the pollution of the river Kird although this is in the name of Crouchland Farms not CBG so may not affect CBGs application for a bespoke permit - CF pleaded guilty but seems the court had no time to finalise things - when will someone do something decisive??
- I still haven't heard the outcome of the hearing by the Traffic Commissioners regarding CBGs use of the "farm" as a transport operating centre in contravention of their licence
- The EA are progressing the bespoke licence & also continuing to investigate the other major pollution incidents - they have a new Team Leader on the case & she seems very focussed & switched on but I think they are still seem reluctant to refuse a new permit/withdraw the existing one due to possible financial implications
- Meanwhile CBG continue to operate with seeming impunity as WSCC are unwilling to take decisive action by issuing a STOP notice (and indeed both CDC & WSCC seem to be happy to leave it to the PCs to focus on the JR etc)
